MANDATORY REQUIREMENTS

For Project Codes in Section B, the corresponding paragraphs in this statement of work shall be considered mandatory requirements, as well as the sections listed below:

- A. Defendant/Person under supervision Reimbursement and Co-payment
- B. General Requirements
- C. Notifying USPO/USPSO of Defendant/Person under Supervision Behavior
- D. Staff Requirements and Restrictions
- E. Facility Requirements
- F. Local Services (if applicable)

1. Urine Collection, Instrumented Testing and Reporting (1010)

The vendor shall perform the following procedures related to the collection, testing and reporting of urine specimens. The Designee will provide the vendor with the necessary urinalysis collection materials (i.e. Chain of Custody forms, vials, specimen bags, mailing boxes, mailing labels which include the cost of shipping); however, the vendor is responsible for printer ink, disposable gloves, cleaning agents, coloring agent, etc.

a. Storage of Urinalysis Supplies

The vendor shall:

- (1) Store all urinalysis supplies in a secure area with access limited only to authorized vendor employees involved in the collection process.

b. Secure Collection Area

The vendor shall:

- (1) To the extent possible, provide a lavatory only for collecting urine specimens that is not used by staff or others not providing urine specimens.
- (2) If the lavatory is used by others not providing a urine specimen, the vendor shall:
 - (a) Limit the possibility of any interference with the collection process or adulteration of the specimen; and
 - (b) Limit access during the collection process to only those involved in the collection of urine specimens.

c. Safety Precautions and Collector Training.

- (1) The vendor shall ensure that collectors reviewed and acknowledged the federal OSHA Bloodborne Pathogen regulations (29 C.F.R. 1910.1030). The vendor shall document the same in the collector's personnel file and the collector must certify they have received and understand the regulations. The vendor shall provide the documentation to the CO upon request.
- (2) The vendor shall ensure that all personnel handling urine specimens wear disposable gloves designed for protection against bio-hazards and are familiar with standard precautions for handling bodily fluids.

d. General Urine Specimen Collection Procedures

- (1) The vendor shall ensure defendants/persons under supervision:
 - (a) Remove jackets, coats, and large pocket items before entering the collection area. These items can be placed on a hook or table inside the collection area.
 - (b) Set aside purse or other carried items. These items can remain in the collection areas; however, must remain outside of immediate access from the defendant/person under supervision.
 - (c) Vigorously wash their hands using soap and water, then thoroughly rinse their hands to remove all soap and any adulterants from under the fingernails or on the skin, and finally dry their hands completely prior to voiding.
 - (d) Roll up long-sleeved shirts so the collector can examine defendant's/person under supervision's arms to detect

tampering devices or adulterants.

- (2) The vendor shall ensure that the collectors:
- (a) Verify the identity of the defendant/person under supervision by means of a state driver's license, state identification or other acceptable form of photo identification.
 - (b) Collect specimens from only one donor at a time. Both the donor and the collector shall keep the specimen collection container in view at all times prior to it being sealed and labeled.
 - (c) Complete a Chain of Custody (provided by the Designee) before a defendant/person under supervision voids following the chain of custody procedures and peel the Barcode label from the Chain of Custody form and place it on the bottle.
 - (d) Collect a minimum of 30 milliliters of urine to allow the laboratory to conduct the initial presumptive screen and confirmation tests. A specimen with less than 10 milliliters of urine is not acceptable for testing and shall not be submitted, unless specifically authorized by the Probation or Pretrial Services Office, as the nationally contracted laboratory will not test it due to insufficient quantity.
 - (e) Not flush urinals/toilets until the collection is completed and the collector advises it is safe to do so (a coloring agent is not necessary for direct observation of urine collection).
 - (f) Observe and document any indication (unusual color, odor) of specimen dilution and/or adulteration, or any unusual collection events or discrepancies.
 - (g) Close and tightly secure the specimen collection container, to ensure it will not leak. The collector shall ensure the container is tightly secured.
 - (h) Review the temperature of the specimen to determine if it is near body temperature, if applicable. If temperature strips are provided by the Designee, the temperature of the specimen should be measured within 4 minutes of collection and should be within a range of 90 - 100 degrees.
 - (i) Use tamper evident tape or label across the top of the bottle cap and down the sides of the bottle, and the collector or defendant/person under supervision shall initial the tamper tape or label.
 - (j) Sign the Specimen Collection Statement of the Chain of Custody Form. The collector shall not sign the certification area of the form until the collection process is completed.

e. **Observed Urine Specimen Collection Procedures**

The vendor shall:

- (1) Directly observe defendants/persons under supervision voiding into a specimen collection container. Collectors observing the voiding process shall be the same gender as the defendant/person under supervision providing the specimen (no exceptions).
- (2) The use of mirrors is acceptable if the mirrors aid the collector in viewing the voiding process.

f. **Unobserved Urine Specimen Collection Procedures**

The vendor shall perform the following urine specimen collection procedures if circumstances prevent the observed collection of a specimen. Unobserved urine collection should be a rare occurrence and not a general manner of vendor operations. The vendor shall ensure that collectors:

- (1) Take unobserved specimens **only** when the defendant/person under supervision and the collector are not of the same gender or it is virtually impossible to collect an observed specimen. If circumstances necessitate the collection of unobserved specimens, the vendor shall contact the CO for approval prior to the collection. If unobserved collection has not been approved, the vendor shall not invoice for the collection.
- (2) Secure any source of water in the area where the collection occurs, by either shutting off the water or securing its access with tamper evident tape.
- (3) Remove and/or secure any agents that could be used to adulterate the specimen, such as soaps, cleaners, and deodorizers.
- (4) Clearly document on the Chain of Custody Form all unobserved collections and document and obvious signs of substitution or contaminants.
- (5) When provided by the Designee, use a temperature strip to measure urine specimen temperatures which should range between 90- and 100-degrees Fahrenheit. The time from voiding to temperature measurement is critical and in no case shall exceed 4 minutes.

- (6) Obtain a second specimen from defendant/person under supervision whose urine specimen temperature is outside the range in (5) above. In an effort to prevent dilute specimens, reduce fluid intake to no more than 8 ounces per hour.
- (7) Place a coloring agent in the commode to deter dilution of the specimen with commode water.
- (8) Follow all general collection procedures in subsection d above.
- g. **Urine Specimen Mailing and Storage** (For specimens shipped or transferred to contract national drug testing laboratories or on-site instrumented drug testing laboratories).

The vendor shall ensure that:

- (1) Every specimen shipped or transferred to a testing facility is contained in a collection container specifically designed to withstand the rigors of transport. All collection containers shall be provided by the Designee.
- (2) The collector places the specimen and corresponding Chain of Custody Form in the approved shipping container, notifies the shipper/delivery service/courier that specimen(s) are ready to be delivered to the laboratory, and places such containers in the custody of an approved delivery service or courier.
- (3) Specimens shall be mailed/shipped no later than the close of business the day the specimens are collected, or the morning of the day following the collection.
- (4) Urine specimens are stored in a secure area with access limited only to collectors or other vendor authorized personnel.

h. **“No Test” Policy**

When any of the above conditions are not met, "No Test" will be stamped on the request report form and the reason for the no test will be checked or written in the space provided. Specimens that cannot be tested will be discarded. The vendor shall ensure that **all** the above conditions are present for specimens sent to the national drug testing laboratories and local or regional on-site laboratories. For districts using a local or regional on-site laboratory for testing of samples, the Chain of Custody Form shall also include the signature of the defendant/person under supervision.

For specimens that are received by the national drug testing laboratories or local or regional on-site laboratories and are untestable in accordance with the no-test policy or failure to follow the required collection guidelines, the vendor shall not invoice the district for the cost of the collection. The Designee will provide notification to the vendor of untestable specimens.

The government reserves the right to revoke approval of any subcontractor at any time that does not meet the requirements of this contract.

The prime contractor is responsible to the judiciary for overall performance of the services required under this contract. If any services are subcontracted, the prime contractor shall ensure that the subcontractor is complying with the requirements of this contract, including the qualifications of any personnel providing services; the possession and maintenance of all appropriate state and local licenses in compliance with state and local regulations; and the appropriate documentation demonstrating compliance with all federal, state and local fire, safety and health codes. The prime contractor shall ensure that subcontractors are not debarred, suspended, or ineligible to perform under federal contracts.

A subcontractor has no contractual rights, known as privity of contract, against the judiciary. However, the subcontractor may have rights against the prime contractor.

Upon contract termination, the contractor must, except as otherwise directed by the CO, terminate all subcontracts to the extent that they relate to performance of the work terminated.

I.3 Clause 2-57 Notification and Credit Monitoring Requirements for Personal Identification Information (PII) Incidents

(a) *Definitions.*

Sensitive Information is any data or other information for which public disclosure, or disclosure to users who do not have a need to know to perform their jobs, can harm individuals, the U.S. government, or private organizations.

Personally Identifiable Information (PII) is information that can identify an individual, when used alone or with other relevant data. PII may contain direct identifiers (e.g., Social Security numbers) that can identify a person uniquely or quasi-identifiers (e.g., date of birth) that can be combined with other quasi-identifiers to successfully recognize an individual. The definition of PII is not anchored to any single category of information or technology.

Sensitive Personally Identifiable Information (SPII) is a subset of PII that if lost, compromised, or disclosed without authorization, could result in substantial harm, embarrassment, inconvenience, or unfairness to an individual.

Privacy Information includes both PII and SPII.

(1) Examples of stand-alone PII that are particularly sensitive include: Social Security numbers (SSNs), driver's license or State identification numbers, Alien Registration Numbers (A-numbers), financial account numbers, and biometric identifiers.

(2) Multiple pieces of information may present an increased risk of harm to the individual when combined, posing an increased risk of harm to the individual. SPII may also consist of any grouping of information that contains an individual's name or other unique identifier plus one or more of the following elements:

- (i) Truncated SSN (such as last 4 digits);
- (ii) Date of birth (month, day, and year);
- (iii) Citizenship or immigration status;
- (iv) Ethnic or religious affiliation;
- (v) Sexual orientation;
- (vi) Criminal history;
- (vii) Medical information; and
- (viii) System authentication information, such as mother's birth name, account passwords, or personal identification numbers (PINs).

(3) Other PII that may present an increased risk of harm to the individual depending on its context, such as a list of employees and their performance ratings or an unlisted home address or phone number. The context includes the purpose for which the PII was collected, maintained, and used. The same information in different contexts can reveal additional information about the impacted individual.

(b) *Determinations.* To determine whether information exposed in an unauthorized disclosure or security breach of information under the control of the Contractor or in an

information system under control of the Contractor at the time the incident is sensitive information, PII, or SPII, the Judiciary will perform an assessment of the specific risk that an individual could be identified using the exposed information with other information that is linked or linkable to the individual. In performing this assessment, it is important to recognize that information that is not PII when considered alone can become PII or SPII whenever additional information becomes available, in any medium or from any source, that would make it possible to identify an individual. Certain data elements are particularly sensitive and may alone present an increased risk of harm to the individual. Final determination of the categorization of exposed information as sensitive information, PII, or SPII shall be made in writing by the CO.

- (c) *PII and SPII Notification Requirements.* (1) No later than 5 business days after being directed by the Contracting Officer, or as otherwise required by applicable law, the Contractor shall notify any individual whose PII or SPII was either under the control of the Contractor or resided in an information system under control of the Contractor at the time the incident occurred. The method and content of any notification by the Contractor shall be coordinated with, and subject to prior written approval by, the Contracting Officer. The Contractor shall not proceed with notification unless directed in writing by the Contracting Officer.
- (d) All determinations by the Judiciary related to notifications to affected individuals and/or Federal agencies and related services (e.g., credit monitoring) will be made in writing by the Contracting Officer.
- (e) Subject to government analysis of the incident and direction to the Contractor regarding any resulting notification, the notification method may consist of letters to affected individuals sent by first-class mail, electronic means, or general public notice, as approved by the Contracting Officer. Notification may require the Contractor's use of address verification and/or address location services. At a minimum, the notification shall include:
 - (1) A brief description of the incident;
 - (2) A description of the types of PII or SPII involved;
 - (3) A statement as to whether the PII or SPII was encrypted or protected by other means;
 - (4) Steps individuals may take to protect themselves;
 - (5) What the Contractor and/or the Government are doing to investigate the incident, mitigate the incident, and protect against any future incidents; and
 - (6) Information identifying who individuals may contact for additional information.
- (f) *Credit Monitoring Requirements.* The Contracting Officer may direct the Contractor to:
 - (1) Provide notification to affected individuals as described in paragraph (b).
 - (2) Provide credit monitoring services to individuals whose PII or SPII was under the control of the Contractor or resided in the information system at the time of the incident for a period beginning the date of the incident and extending not less than 18

months from the date the individual is notified. Credit monitoring services shall be provided from a company with which the Contractor has no affiliation. At a minimum, credit monitoring services shall include:

- (i) Triple credit bureau monitoring;
- (ii) Daily customer service;
- (iii) Alerts provided to the individual for changes and fraud; and
- (iv) Assistance to the individual with enrollment in the services and the use of fraud alerts.

(3) Establish a dedicated call center. Call center services shall include:

- (i) A dedicated telephone number to contact customer service within a fixed period;
- (ii) Information necessary for registrants/enrollees to access credit reports and credit scores;
- (iii) Weekly reports on call center volume, issue escalation (*i.e.*, those calls that cannot be handled by call center staff and must be resolved by call center management or DHS, as appropriate), and other key metrics;
- (iv) Escalation of calls that cannot be handled by call center staff to call center management or AOUSC, as appropriate;
- (v) Customized Frequently Asked Questions, approved in writing by the Contracting Officer in coordination with the Judiciary Breach Response Team (BRT); and
- (vi) Information for registrants to contact customer service representatives and fraud resolution representatives for credit monitoring assistance.

(g) *Flow-Down Clause Requirements.* For each subcontractor whose work requires access to judiciary facilities, IT resources, or data, the contractor certifies that it has incorporated this clause in the subcontract. Any breach by a subcontractor of any of the provisions set forth in this clause will be attributed to the contractor.

I.4 Clause B-5 Clauses Incorporated by Reference - (SEP 2010)

Form Disclosure

This Model Sex History Disclosure Polygraph Questionnaire (“Model Policy Questionnaire”) was prepared by the American Polygraph Association’s (APA) Post Conviction Sex Offender Committee (PCSOT Committee) and approved by the APA Board of Directors on August 26, 2023. The PCSOT Committee endeavored to incorporate in this Model Policy Questionnaire the most current information and contemporary professional judgment on this issue. However, no “model” policy or “model” questionnaire can meet all the needs of any given agency, polygraph examiner, or other sex offender team member (sex offender team). While this Model Policy is provided to assist in standardizing and promoting the effectiveness of the Sexual History Exam each sex offender team operates in a unique environment of federal court rulings, state laws and court rulings, local ordinances, regulations, and administrative decisions. In addition to these considerations, the formulation of specific sex offender team policies and questionnaires should consider local political and community perspectives and customs, prerogatives and demands; divergent strategies and philosophies; and the impact of varied resource capabilities, unique circumstances of the sex offender, among other factors.

This Model Policy Questionnaire is informational and not intended as professional, legal, or other advice or as a substitute for advice from a professional or attorney. If you require professional, legal, or other advice about the subject of this Model Policy Questionnaire, you should seek the services of a professional or attorney in your jurisdiction.

The APA disclaims all liability to any party for any direct, indirect, implied, punitive, special, incidental, or other consequential damages arising directly or indirectly from any use of this Model Policy Questionnaire.

Information for Treatment and Supervision Team Members

This Model Sex History Disclosure Polygraph Questionnaire is provided to assist convicted persons, treatment providers, supervising officers and polygraph professionals to increase the standardization and effectiveness of the Sexual History Exam (SHE), as described in the APA Model Policy for Post Conviction Sex Offender Testing. The SHE is a screening polygraph used to investigate the veracity of a convicted persons' self-reported history of involvement, in uncharged or unreported sexual offense behaviors and sexual behaviors that may be indicators of sexual compulsivity, sexual pre-occupation, or sexual deviancy. The SHE should be used when a referring professional wants to investigate a convicted person's lifetime history of uncharged/unreported sexual offense behaviors. The SHE is conducted on persons convicted of sexual offenses, in the absence of any allegation or incident other than the crime of conviction or other known historical convictions. Polygraph testing via the SHE is not intended to investigate reportable crime information and should not be interpreted as deterministic or infallible. Instead, test results can be thought of as categorical conclusions based on the probabilistic strength of information or margin of uncertainty along with the stated tolerance for risk of error.

Behavioral targets should be selected in collaboration with the referring professional for their operational relevance to risk assessment, risk management and treatment planning. Target questions may include behaviors related to the selection of, access to, control or silencing of, and impact on abused persons. Target issues may also include non-contact sexual offense behaviors, as well as behaviors related to grooming, manipulation, use of violence, physical force, restraint, threats of harm, and building or exploiting relationships as a means of gaining access to others for sexual abuse. Target issues may also provide information about involvement or non-involvement in behaviors that may be indicative of sexual compulsivity or preoccupation. Although it is unrealistic to attempt to test and fully resolve every possible sex history target, or to assume that it is possible to know everything about a convicted person's entire lifetime of sexual behavior, the SHE commonly addresses a range of different target behaviors that are interpreted with an assumption of independence. In other words, the SHE is a multiple issue test, subject to the advantages and limitations of omnibus analysis. The SHE can also be conducted as a narrowly focused single-issue exam, or as a series of single-issue exams. Validated polygraph test formats can be used with two to four relevant target issues.

Examiners should familiarize themselves with the types of sexual behavior that play an important role in sex offense risk assessment and sex offense treatment. Some sexual behaviors, for example, may be indicative of sexual compulsivity or preoccupation for which the actual number of incidents, for those who admit these behaviors, may not add additional information – though such test questions may be useful with convicted persons who substantially deny any involvement in those behaviors.

Information and results from these examinations are intended to assist in risk assessment, risk management and treatment planning. The goal of these polygraph examinations is not to identify prosecutable crimes, but to obtain information about an individual's sexual attitudes and behaviors, and to help clarify whether a person has a history of acting on particular sexual interests, desires, or patterns of problematic sexual behavior. For persons who have not engaged in particular behaviors, the goal is to establish a basis of evidence to support professional conclusions to accept the veracity of the individual's statements. Information and results from these examinations should be reported only to the professional members of the supervision or treatment team unless otherwise directed by law.

Information for Examinees

Information requested in this Sex History Disclosure Polygraph Questionnaire is intended to help your treatment and supervision team members with treatment planning, risk assessment tasks, and risk management goals. Do not provide any identifying information of uncharged sexual behavior such as; dates, location, relationship, or any other information that reveals the identity of another person. Something that is “uncharged” is a behavior you have not been convicted of. Examples of this may include (but are not limited to) a sexual behavior where you plead to a non-sexually related crime, a sexual behavior that led to a violation instead of a new conviction, the sexual behavior qualified for youthful offender status, and/or deferred sentencing such as accelerated rehabilitation. However, you are requested to be truthful and honest about your history of sexual behavior patterns. The information and forms in this Sexual History document are designed to help you to be truthful and successful. Refer to the included Operational Definitions and talk to your treatment and supervision team members for information if you have any difficulty understanding the information or these instructions. Truthfulness about your sexual history may be viewed as a milestone or indicator of engagement and progress in treatment.

Directions:

1. Complete every page (every form) even if you have nothing to report. If you have nothing to report about a particular behavioral question simply state that on the form, or cross out the form, and then sign and date the form. If someone assisted you in completing each form, have them write their name at the bottom of each form.
2. **Do not** include personal identifying information for any other person. This includes:
 - a. Their name,
 - b. Relationship to you (such as identifying children, nieces, grandparents, etc.).
 - c. The exact dates of a behavior or incident,
 - d. The exact location or jurisdiction where a behavior or incident occurred, and
 - e. Other identifying information.
3. When completing the forms, please include only the information requested (i.e., age of the other person, gender of the other person, if they were related to you or not, if you knew the person more or less than 24 hours, etc.)
4. If you do not understand any information requested, you may write or indicate that on the form. Then sign and date the form.
5. If you prefer to discuss the information with your treatment provider or with your supervising officer before completing each form, or during the polygraph interview you may write or indicate that on the form. Then sign and date the form.
6. The timeframe of interest to your Sex History Polygraph is your entire lifetime. However, your treatment and/or supervision team member may provide you with individualized instruction or guidance about how to complete the Sex History Disclosure Polygraph Questionnaire which may include a different time frame.
7. Complete all of the sexual behavior forms first. Again, do not put any other person’s personal identifying information on these forms. There are four sections in the Sexual History Document: Personal Sexual History, Sexual Offense Behaviors, Non-Contact Sexual Offense Behaviors, and Viewing Nudity/Pornography/Erotica/Sexual Stimulating Image.
8. Complete the summary forms for the first 2 after you have completed the sexual behavior forms.

Please talk with your treatment and supervision team member if you have any difficulty understanding the information. You are not required to provide identifying and reportable information about unknown crimes.

Operational Definitions

From Section 6.0 of the Post Conviction Sex Offender Testing (PCSOT) Model Policy

Every behavior of concern to the multi-disciplinary supervision and treatment team is anchored by an operational definition. Experience has shown that all of these behaviors can be discussed without disclosing personally identifiable or reportable information.

- A. **Physical sexual contact:** refers to rubbing or touching another person's sexual organs (i.e., breasts, buttocks, genitalia) whether over or under clothing, for the purpose of sexual arousal, sexual gratification, sexual stimulation or sexual "curiosity." This includes having, allowing, or causing another person to rub or touch one's own sexual organs, whether over or under clothing. This does not include medical care with adults or children, or parental contact with children's private areas in the form of diapering, wiping, bathing, dressing, or changing, unless done for the purpose of sexual arousal or stimulation.
- B. **Non-contact sexual behavior:** refers to sexual behaviors such as exhibitionism, voyeurism, public masturbation, child pornography, or other sexual behaviors that are unlawful but do not involve physical contact.
- C. **Sexual contact:** any form of contact with an individual for the purpose of sexual arousal, sexual gratification, sexual stimulation or sexual "curiosity."
